After the house committees had been announced, Levitt of Oceana, gave notice of a bill making it a misdemeanor to give a balloon ascension or light rope exhibition. Afterward the member offered a resolution to prohibit smoking in the house. A vote was taken and the room with which it was knocked out caused Mr. Levitt's motion to be voted down.

In appointing his committees Mr. Tateum, it is said, put members in the southern part of the state on upper peninsula committees to give them a chance at the extra mileage. Upper peninsula members draw \$2 a day extra on account of the distance and this gives them up a little.

IN THE SENATE.

Senator Sablin Proceeds to Knock Out the Board of Control.

LANSING, Jan. 10.—Little of importance was done in the senate today. Notices of a few bills were filed and the rest of the time devoted to arrangement of committees. The chair appointed Senators McKinley, Weeks and Chapman to ascertain what committees should be created. Senators (Gibson, Steele, Felt, Graves and Mott) were appointed as a committee on contested election cases. Senator Fishburn filed notice of a bill to authorize railroad companies whose roads are situated in the Upper Peninsula to lease, sell or convey their property and franchises to any other railroad company to lease and purchase the property and franchises of other companies. Senator Sablin of Three Rivers filed notice of important bills affecting the control of state institutions as follows: To re-

peal control board of control act of 1891; to subject said institutions to the provisions of chapters 44, 45, 50 of Howell's statutes; to declare vacant the membership of the boards of control of said institutions and to provide for the appointment of boards of control for the same.

A bill to repeal the act of 1891 for a state board of inspectors to act as an advisory board for the penal institutions; to subject said advisory board and of the advisory boards of control of said institutions and to provide for the appointment of boards of control for the same and said advisory board.

A bill to amend Howell's statutes relative to the management of state institutions by adding three new sections, which provide that the membership of all boards having the supervision of state institutions be declared vacant.

A bill to amend Howell relative to state public school.

The boards of control of the state institutions are at present composed of democratic members, and the bills will have the effect of entirely reorganizing them.

The concurrent resolution which passed the house in the morning to employ disabled soldiers as committee clerks, got side-tracked in the senate. After some discussion it was tabled by a vote of 17 to 10.

Deputy State Treasurer Baxter reported a balance of \$345,878.88 in the state treasury.

SHOT A BOY.

Brutal Work of Drunken Passengers on the Posen Stage.

ROGERS CITY, Jan. 10.—The mail stage from Rogers City to Alpena, driven by Dick Kelley, passed through Posen about noon today. It contained four workmen named Frank Lafleur, Frank Morrey, Jacob Minard and Tom Makoskey, all of whom had been drinking. When opposite the dwelling of Simon Konwinski, one or more of them fired directly at Andrew Konwinski, the 8-year old son of Simon Konwinski, shooting off a thumb and two fingers, badly lacerating the hand and inflicting an ugly wound in the breast. The boy has just been brought to Rogers City, where he lies in a state of collapse. Should he rally, the hand will have to be amputated. The sheriff of Alpena has been notified of the outrage and will arrest the guilty parties on the arrival of the stage in Alpena.

LUDINGTON SNOWED IN.

The Town is Cut Off From Railroad Communication.

LUDINGTON, Jan. 10.—Five trains are fast in the snow on the Flint & Pere Marquette railroad, between Scottville and Custer. No mail has reached here since Saturday and there is at present little prospect of any for several days. The town has been cut off from the outside world by rail. The great storm is still in progress, all roads are drifted full and the mercury is five degrees below zero.

Petty Forgery.

FLINT, Jan. 10.—Alexander Sweet, a young man, was arrested at the Chicago & Grand Trunk depot Saturday, where he was waiting for a train to leave for Waukegan, Ill. For some time past Sweet has been working on the farm of Lewis Cornwall, near Mt. Morris, and he is charged with having forged his employer's name to a \$5 check, which he succeeded in getting cashed at Mann's store in Mt. Morris. Sweet then came to this city, where he made an unsuccessful attempt to pass a similar \$10 order on Pierce Bros. of this city.

Horsewhipped by a Woman.

JACKSON, Jan. 10.—Arley Harris, a telegraph operator employed by the Michigan Central Railroad company, and working at the junction in this city, was horsewhipped by a woman Sunday morning. Harris was jolting lightning as usual, when, without warning, he received several stinging blows in rapid succession across the face and shoulders. Before he could recover himself his fair assailant disappeared through the doorway, entered a hack and was driven rapidly away.

Boy's Bad Start.

FLINT, Jan. 10.—Claude Cool, aged about 18 years, came to the city from Davison township on Saturday last with a sparrow order on the county treasurer for \$15.30. After getting his order countersigned by the deputy county clerk the youth succeeded in getting his cash from County Treasurer Richards.

Drank Himself to Death.

INTERPENO, Jan. 10.—A dance was given Sunday night at John Hansen's saloon at Interpenco. Both men and women attending drank too much. The proprietor, Hansen, was taken to bed at 9 o'clock and died a few moments after. An inquest will be held.

HIS HEALTH BROKEN

And His Condition Becoming Critical.

UNABLE TO DO A FULL DAY'S WORK.

The Case of Mr. Keeler, Showing the Result of Neglected Catarrh—The Treatment of Drs. Copeland and Graham a Success—Words of Praise.

"I was feeling pretty bad when I first called on Drs. Copeland and Graham. I was not only suffering from pain, but I was worried in mind very much for my condition was fast becoming critical."

The speaker was Mr. Keeler who lives at Plainfield, this county, and who was being interviewed regarding his treatment with Drs. Copeland and Graham.

"Yes," he said, "I was falling every day and was unable to do a good day's work and I seemed to be going down hill so fast that I became alarmed. I would become so weak after working a little while that I could hardly stand on my feet. I would be completely exhausted."

"I had fearful headaches. The pain would be over my eyes and in the back of my head extending down my neck. I had a bad pain in my back and sometimes a stitch would take me so that I could not sleep, or if sleeping I could not straighten up."

"I had difficulty in breathing. My nose was so completely stopped up nearly all the time that I had to breathe through my mouth. My nostrils were dry and feverish. From behind my palate the mucus dripped down into my throat and accumulated there to such an extent that it required a constant hawking and spitting to clear my throat. When asleep the mucus and phlegm would gather in my throat and I would wake almost choked and strangled."

"I thought cold easily, my throat would be sore and inflamed, my eyes weak and watery and my hearing much impaired. Pains would take me in the chest and dart through between my shoulder blades. I had aches and pains all through me."

"My appetite was poor. I could eat but little. There was scarcely anything I cared for. Food of any kind caused me distress. There was a soreness and tenderness in the stomach and bowels and a sense of fullness or weight. I had flatulency and colic pains and my stomach seemed bloated or swollen. I would feel dizzy at times and be sick at my stomach."

"This was as near as I could tell the condition I was in when I placed myself under the treatment of Drs. Copeland and Graham, but they have wrought a wonderful change. From the first I have improved steadily. All my neighbors noticed the change in me. I am free from all my former symptoms and feel like a new man. I can most cheerfully endorse the treatment of these gentlemen and advise all sufferers to go to them."

THEIR CREDENTIALS.

Dr. Copeland is a graduate of Bellevue Hospital Medical College, New York, was president of his class in that institution. Dr. Graham bears credentials equally as notable as his own, and has advanced steadily with him. They represent primarily the best medical training the country affords, many years of continual practice, and entire and absolute devotion to the diseases in their specialties, wide and extended experience in treating these diseases and untiring success.

It has been our custom for many years to generously reciprocate the favors of the year by furnishing these linens at extraordinarily low prices. This is what has made our Linen Sale so famous all over the state, and the reason that so many imitations hold alleged linen sales at this time, hoping to gain a few dollars and dispose of unsaleable goods from the glory and magnitude of our yearly linen festival. Did we need a flattering testimonial we have it in the efforts of other merchants to emulate our ideas. IT'S USELESS—our sales are established facts, made all powerful by the support of the people.
